Betsaida -- Here is a question and proposed answer, I received from our program staff. Please let me know if it is okay to forward this response to the reporter. Thank you.

The reporter for a local newspaper is asking:

Q: Is the EPA still planning on conducting testing at 61 households in Dimock Township? Or will the tests be conducted at a smaller number of households?

PROPOSED ANSWER: EPA is still sticking with it's original estimate that 61 homes will be tested.

Subject: Dimock question

Hi Ms. Taylor,

Is the EPA still planning on conducting testing at 61 households in Dimock Township? Or will the tests be conducted at a smaller number of households?

Thank you for your assistance.

Sincerely,
Charlie Passut
